OVERVIEW: WHAT YOU CAN EXPECT

A framework to tackle these questions:

- How to determine the right kinds of traffic for your business goals (and how to nurture it)?
- Which traffic metrics matter?
- What traffic channels should you focus on and what tactics should you use?

A QUICK REFRESHER

| Purpose of your website | Goals of your website | Know your Audience |
|---|--|---|
|  |  |  |
| <p>What is the purpose of my site?</p> <p>Am I providing a service, a product or information?</p> | <p>What action do I want my visitors to take upon visiting the site?</p> <hr/> <p>Examples of goals: lead generation, building awareness, conversions, sales</p> | <p>Who am I trying to reach?</p> <p>What are the demographics of my audience?</p> <hr/> <p>Understand your buyers! Create buyer personas to target them better.</p> |

Clearly define and understand your website's **purpose, goals and audience** – these prerequisites are critical to attracting ***quality traffic!***

NOT ALL TRAFFIC IS EQUAL

GOAL: *quality traffic*

- Visitors that align with your buyer personas
- Visitors that are interested in your content
- Visitors that complete your goals (e.g. - signups for a newsletter, contact form submissions, video views, product purchases)
- Strive for some diversity in sources

KEY INDICATORS: *engagement, geo, conversions, sales*

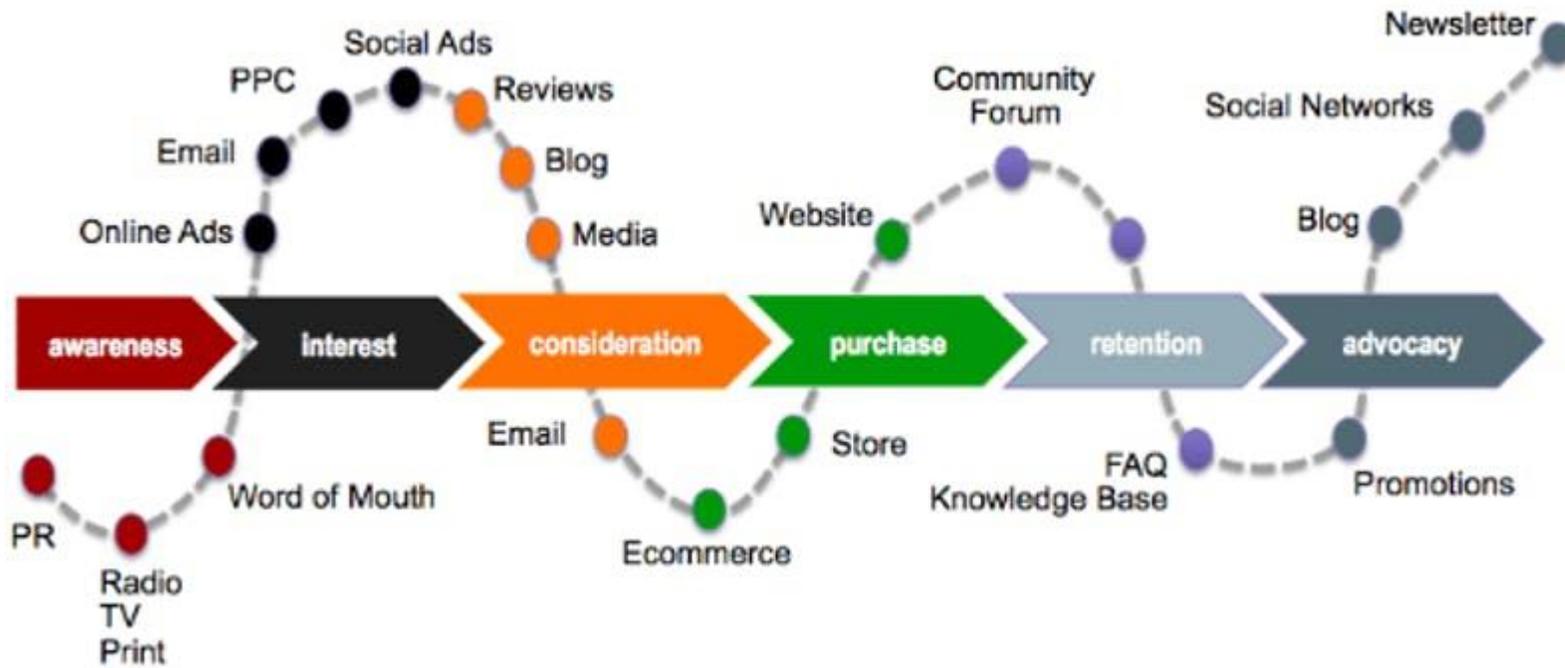

KNOW YOUR CUSTOMERS: BUYER PERSONAS

- Why are buyer personas important?
 - What should they include?
(demographics, motives, behaviours)
 - Where to source the data you need?
-

Recommended buyer persona how-to's & resources:

- [hubspot/make-my-persona](https://www.hubspot.com/make-my-persona),
- blog.hootsuite.com/buyer-persona
- buffer.com/library/marketing-personas-beginners-guide

KNOW YOUR CUSTOMERS: THE CUSTOMER JOURNEY

How does your customer arrive at the decision to buy?

Build customer journeys for each persona

Develop campaigns & tactics for each step in the journey

OUTCOMES

Not all traffic is equal

Not all websites serve the same
need

Brochure websites
(lead-gen)

E-commerce
(Sales)

SaaS / PaaS
(Subscriptions)

Considerations:

- Marketing and sales funnels
- Pages and campaigns can work differently in each step of the funnel
- Conversion rate at each stage of the funnel, for each type of traffic
- Requires measurement

Tools: Google Analytics, FireBase, Woopra, CrazyEgg etc.

Metrics: What to optimize for vs. what metrics get you there

Platforms: CRM + CMS like Hubspot etc.
